Please refer to the Lumens Chart for LED products:

ENERGY LABELLING REGULATION - (EU) 874/2012

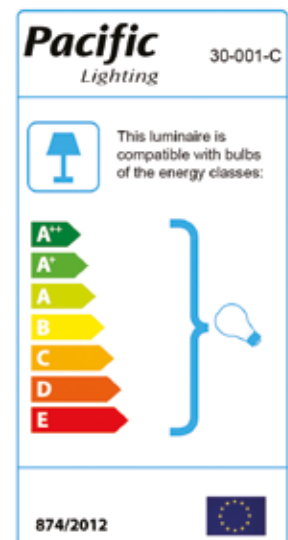

From March 1st 2014 we are required by EU regulations to show the suggested lamp (bulb) energy ratings for all luminaires.

Note: The luminaires label is NOT strictly an energy label, it is a lamp compatibility label.

As with other regulations, these dates relate to products being placed on the market and Pacific Lifestyle products now include an energy label swing ticket on all products falling under this regulation and entering the EU from 1st March 2014.

All Pacific Lifestyle Lighting energy labelling is available to download on the individual product pages over on our website:

Modish Metal

Incorporating luxurious metal accents can refresh and invigorate through the seasons. Our 2020 range has been expertly curated to offer striking pieces with a modern feel.

Choose from the subtle, pewter tones and smooth forms of our Portici collection to stay ultra cool or add a splash of burnt sienna vibrancy with our Alonzo floor lamp in brushed copper to opt for a statement piece with style.

Artisan Wood

A material which epitomises a sense of the natural and artisan, our wood lighting collections exude a time-honoured aesthetic. Table lamps formed from smooth curvilinear columns supply Romanesque majesty whilst bold and beautiful bases are splashed with rich metallic accents. Each design lovingly crafted with intricate details and thoughtful finishes providing a hint of the bespoke.

JENNY WORRALL DESIGNS
ENGLAND

OUR JENNY WORRALL TABLE LAMPS ARE SKILFULLY HAND-DECORATED USING THE TRADITIONAL VICTORIAN TECHNIQUE OF POTICHOMANIA

The beautiful lampbases are actually made of glass with commissioned artwork placed inside the base by hand. The colour and metallic finishes are then carefully applied over the decals. Each lampbase goes through a minimum of five processes and takes twenty four hours to complete. These stunning lamps really are antiques of the future.

The adaptable collection can be paired with both classic and contemporary shades.

Shade Information

Most of our shades come with a detachable reducer to suit B22, E27 & E14 bulbs.

Most of our cylinder shades are reversible meaning that they can be used as a lamp shade or as a pendant using one of our accessories on page 189.

DIFFUSERS

Our diffusers can be used to diffuse the light on all our ever popular 36-261 Lino shades.

The diffuser is simply placed at the bottom of the shade if required. Please select your size from the table below.

Shade Guide

At Pacific Lifestyle, we know that pairing the right shade and lamp base can be difficult. That's why we have put together a few helpful hints and tips to make sure you pick the right shade first time, every time!

RULE OF THUMB

As a general rule, make sure the height of your base is the same diameter as your shade.

However, on slimmer bases, such as candlesticks, reduce the diameter of the shade to half the size of the base for a better effect.

You also want to make sure the shade doesn't expose any of the hardware underneath such as the lampholder when looking straight on to the lamp.

SHAPE IT UP

If the base is round, it will look best with a cylinder or tapered cylinder shade.

A square or angular base generally looks best with a corresponding square shade, or softened with an oval shade.

A candlestick lamp looks good with just about any shape of shade.

STYLE IT UP

A textural, natural-feel shade looks great on a wooden base; Milos, Edward, Winston, Henry and Lino.

Crystal or glass bases suit bright and monochrome colours with more of a silky finish; Cynthia and Zara.

We have contemporary pleated shades; Josephine, Vivienne and Lyndon and more classic styles; Garbo and Bacall. There are no hard and fast rules - it's personal preference and we offer different profiles within our range to allow for that flexibility.
